MOCEAN STRATEGIC CLOUD LLC

Cloud Infrastructure · Managed IT · CMMC Consulting · AI Automation · Navy C4ISR Background

CORE COMPETENCIES

- **Cloud Architecture & Migration** AWS infrastructure design, lift-and-shift, IaC (Terraform/CloudFormation). Optimized for government-adjacent workloads.
- **Managed IT / MSP Services** Full-service remote IT management, help desk, endpoint security, patch management, 24/7 monitoring.
- **AI & Automation Solutions** Custom workflow automation, AI-assisted operations, LLM integration, and agentic process automation.
- **CMMC / NIST 800-171 Consulting** Gap assessments, SSP development, POA&M creation, and Level 2 readiness prep for DIB contractors.
- **IT Program Support & Advisory** IT strategy, technology roadmaps, vendor management, and digital transformation for government programs.

DIFFERENTIATORS

- **Service-Disabled Veteran Owned** SBA VetCert in process (certifications.sba.gov). Eligible for SDVOSB set-asides upon certification. VA Veterans First priority.
- **Naval C4ISR Credibility** Founder formally trained on AN/SRC-55 (HYDRA) and USC-38 GBS. 4 years operating and repairing AN/WSC-6/8/3, OE-82, DSCS amplifiers, and pHEMT modules fleet-wide. CSSO collateral duty. Understands DoD comm and security environments from the inside — not a civilian firm guessing at requirements.
- **AWS Cloud Expertise** Hands-on architecture — EC2, RDS, S3, Lambda, VPC, IAM — with security-first configurations for sensitive workloads.
- **CMMC / DoD Security — Lived It** Founder served as Combat Systems Security Officer (CSSO, collateral duty) — managed information security and access control for PCs, terminals, and COMSEC equipment across two divisions. Also served as Work Center Supervisor for all assigned comm gear. CMMC consulting is built on direct DoD security accountability, not a textbook.
- **CMMC-Ready Operations** Internal environment aligned to NIST SP 800-171. Actively building SPRS score. Positioned for DIB supply chain.
- **AI-Native Delivery** AI tooling integrated into MSP operations for faster resolution, automated documentation, and anomaly detection.
- **Colorado-Based, Remote-Capable** HQ Denver, CO. Serves DoD corridor (Peterson SFB, Schriever SFB, Fort Carson). Fully remote across CONUS.

PAST PERFORMANCE

- **Patterson Companies — Special Technology Advisor** Fortune 500 dental/medical supply ($6B+ revenue). Traveled globally implementing, repairing, and deploying enterprise technology systems across a large distributed organization. Complex multi-site rollouts and on-site technology implementations at scale.
- **MOCEAN / Local IT Firm — Active Clients** 17 years of IT practice. Current active client engagements across cloud infrastructure, managed IT/MSP, cybersecurity, and AI automation. Managing Partner, local IT firm (security/AI/full IT). References available upon request.
- **U.S. Navy — SATCOM Technician & CSSO** AN/SRC-55 (HYDRA) and USC-38 GBS schooled. Component-level repair: AN/WSC-6/8/3, Challenge ATHENA, OE-82, DSCS amplifiers, pHEMT modules, fleet-wide. CSSO collateral — InfoSec and COMSEC security across two divisions. CVN-77 · CVN-75 · multiple ships and shore stations.

Teaming welcome — Seeking teaming with SDVOSB and large-business primes on VA, DoD, and civilian IT vehicles.
